

SAFETY DATA SHEET

P.E. 837

Section 1. Identification

GHS Product Identifier : P.E. 837
Product Code : 837
Identified Uses : Industrial applications

Supplier's Details: Poly Enviro Laboratory
16706 Advantage Avenue
Crest Hill, IL 60403 U.S.A.
Technical Services: (708) 478-1638

Emergency Telephone Number: 24 hr. CHEMTREC 1-800-424-9300
(with hours of operation) International 1-703-527-3887

Section 2. Hazards Identification

Hazard Classification

OSHA/HCS Status: This material is not considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910.1200)

GHS Label Elements

Signal Word: No signal word.

Hazardous Statements: No known significant effects or critical hazards.

Precautionary Statements

Prevention: Not applicable

Response: Not applicable

Storage: Not applicable

Disposal: Not applicable

Hazards not otherwise classified: None Known

Section 3. Composition/Information on Ingredients

Ingredient name	CAS Number	%
Petroleum hydrocarbon	8009-03-8	Proprietary
Proprietary multi-hydrocarbon mixture	8009-03-8	Proprietary
No other ingredients are hazardous according to OSHA criteria. No other components need to be disclosed according to the applicable regulations.		

In accordance with Regulation §1910.1200, the specific chemical identity and/or exact percentage (concentration) of composition has been withheld as a trade secret.

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentration applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

Occupational Exposure Limits, if Available, are Listed in Section 8.

Section 4. First Aid Measures

Description of Necessary First Aid Measures

Eye Contact: Flush affected eye(s) cautiously with cold water for several minutes while keeping eyelids open. Remove any contact lenses if present and easily removable. Continue rinsing eye(s). Get medical attention if irritation or redness occurs.

Inhalation: Move away from source of exposure and into fresh air. Keep at rest in a position comfortable for breathing. Get medical attention if symptoms occur or irritation persists.

Skin Contact: Flush or immerse contaminated skin with plenty of cold water. Remove contaminated clothing. Wash clothing before reuse. Get medical attention if symptoms or irritation develops.

Ingestion: First aid is normally not required. Rinse mouth with water. Never give anything by mouth to an unconscious person. Do not induce vomiting. Get medical attention if symptoms develop.

Most Important Symptoms/Effects, Acute and Delayed

Potential Acute Health Effects

Eye Contact:	No known significant effects or critical hazards.
Inhalation:	No known significant effects or critical hazards.
Skin Contact:	No known significant effects or critical hazards.
Ingestion:	No known significant effects or critical hazards.

Over-Exposure Signs/Symptoms

Eye Contact:	No specific data.
Inhalation:	No specific data.
Skin Contact:	No specific data.
Ingestion:	No specific data.

Indication of Immediate Medical Attention and Special Treatment Needed, if Necessary

Notes to Physician:	Treat symptomatically.
Specific Treatments:	No specific treatment.
Protection of First-Aiders:	No action shall be taken involving any personal risk or without suitable training.

See toxicological information (Section 11)

Section 5. Fire-fighting Measures

Extinguishing Media

Suitable Extinguishing Media: Use an extinguishing agent suitable for the surrounding fire.

Unsuitable Extinguishing Media: Do not use water jet.

Specific Hazards Arising from the Chemical: No specific fire or explosion hazard.

Hazardous Thermal Decomposition Products: No specific data.

Special Protective Actions for Fire-Fighters: Isolate the area by removing all persons from the proximity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.

Special Protective Equipment for Fire-Fighters: Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus with a full face-piece operated in positive pressure mode.

Section 6. Accidental Release Measures

Personal precautions, protective equipment and emergency procedures

For Non-Emergency Personnel: No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Put on appropriate personal protective equipment.

For Emergency Responders: If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".

Environmental Precautions: Prevent spilled material from entering sewers or other unauthorized drainage systems. Spilled material may be absorbed into an appropriate absorbent material. Notify relevant authorities of any environmental pollution.

Methods and Materials for Containment and Cleaning Up

Small Spill:	Stop spill or release if it can be done with minimal risk. Wear appropriate protective equipment as conditions warrant. Sweep or vacuum material and package in a waste container labeled for disposal. Dispose of utilizing a licensed waste disposal contractor and in accordance of local, county, state, and federal regulations. Notify appropriate fire, federal, state, and local authorities.
Large Spill:	Stop spill or release if it can be done with minimal risk. Move containers from spill area. Prevent entry into drainage systems and sewers. Wear appropriate protective equipment as conditions warrant. Sweep or vacuum material and package in a waste container labeled for disposal. Dispose of utilizing a licensed waste disposal contractor and in accordance of local, county, state, and federal regulations. Notify appropriate fire, federal, state, and local authorities. Note: See section 1 for emergency contact information and Section 13 for waste disposal.

Section 7. Handling and Storage

Precautions for Safe Handling

Protective Measures:	Put on appropriate personal protective equipment (see Section 8).
Advice on General Occupational Hygiene:	Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.
Conditions for Safe Storage, Including any Incompatibilities:	Store in accordance with local and federal regulations. Store in original container. Keep container in a cool, dry and well-ventilated area, away from incompatible materials (see Section 10). Keep container tightly closed. Protect container from physical damage.

Section 8. Exposure Controls/Personal Protection

Control Parameters

<u>Occupational Exposure Limits:</u>	None
Appropriate Engineering Controls:	Good general ventilation should be sufficient.
Environmental Exposure	

Controls: Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation.

Individual Protection Measures

Hygiene Measures: Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location.

Eye/Face Protection: Safety glasses with side-shield unless the assessment indicates a higher degree of protection. Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts.

Skin Protection

Hand Protection: If a risk assessment indicates necessary, then chemical resistant gloves should be worn at all times when handling chemical products.

Body Protection: Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist.

Other Skin Protection: Additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist.

Respiratory Protection: Local exhaust should be sufficient. If a risk assessment indicates necessary, use a particulate filter respirator in compliance with an approved standard.

Section 9. Physical and Chemical Properties

Appearance

Physical State:	Semi-solid
Color:	Soft yellow
Odor:	None
Odor Threshold:	N/A
Melting Point:	54.4-60°C (130-140°F)
Flash Point:	Closed cup: >248°C (>480°F) Open cup: > 187.7°C (>370°F) [Cleveland.]
pH:	N/A
Evaporation Rate:	N/A
Flammability (Solid, Gas):	N/A
Lower and Upper Explosive (flammable) Limits:	N/A

Boiling Point and Range:	325 to 710°C (617-1310°F)
Vapor Pressure:	<0.0013kPa (<0.01 mm Hg) [room temperature]
Vapor Density:	N/A
Relative Density:	0.8
Solubility:	Insoluble in cold water and hot water
Partition Coefficient:	6
n- Octanol/Water	
Auto-Ignition Temperature:	>246°C (>475°F)
Viscosity:	Kinematic (40°C): >22 cm ² /s
Decomposition Temperature:	N/A

Section 10. Stability and Reactivity

Reactivity:	No specific test data related to reactivity available for this product or its ingredients.
Chemical Stability:	This product is stable.
Possibility of Hazardous Reactions:	Under normal conditions of storage and use, hazardous reactions will not occur.
Conditions to Avoid:	No specific data.
Incompatible Materials:	No specific data.
Hazardous Decomposition Products:	Under normal conditions of storage and use, hazardous decomposition products should not be produced.

Section 11. Toxicological Information

Information on Toxicological Effects

Acute Toxicity

Product/Ingredient Name	Result	Species	Dose	Exposure
Petrolatum	LD50 Dermal	Rabbit	>5000 mg/kg	-
	LD50 Oral	Rat	>5000 mg/kg	-

Irritation/Corrosion

Not available.

Sensitization

Not available.

Mutagenicity

Not available.

Carcinogenicity

Not available.

Conclusion/Summary:

The classification as a carcinogen need not apply if it can be shown that the substance contains less than 3 % DMSO extract as measured by IP 346.

Reproductive Toxicity

Not available.

Teratogenicity

Not available.

Specific Target Organ Toxicity (Single Exposure)

Not available.

Specific Target Organ Toxicity (Repeated Exposure)

Not available.

Aspiration Hazard

Not available.

Information on the likely

Routes of Exposure:

Not available.

Potential Acute Health Effects

Eye Contact:

No known significant effects or critical hazards.

Inhalation:

No known significant effects or critical hazards.

Skin Contact:

No known significant effects or critical hazards.

Ingestion:

No known significant effects or critical hazards.

Symptoms related to the physical, chemical and toxicological characteristics

Eye Contact:

No specific data.

Inhalation:

No specific data.

Skin Contact:

No specific data.

Ingestion:

No specific data.

Delayed and immediate effects and also chronic effects from short and long term exposure

Short term exposure

Potential Immediate Effects:

Not available.

Potential Delayed Effects:

Not available.

Long Term Exposure

Potential Immediate Effects:

Not available.

Potential Delayed Effects:

Not available.

Potential Chronic Health Effects

Not available.

General:

No known significant effects or critical hazards.

Carcinogenicity:

No known significant effects or critical hazards.

Mutagenicity:

No known significant effects or critical hazards.

Teratogenicity:

No known significant effects or critical hazards.

Developmental Effects: No known significant effects or critical hazards.
Fertility Effects: No known significant effects or critical hazards.

Numerical Measures of Toxicity

Acute Toxicity Estimates

Not available.

Section 12. Ecological Information

Toxicity

Product/Ingredient Name	Result	Species	Exposure
Petrolatum	Acute EC50>100 mg/l	Algae	72 hours
	Acute EC50>100 mg/l	Daphnia magna	48 hours
	Acute LC50>100 mg/l	Fish	96 hours

Persistence and Degradability

Not available.

Bioaccumulative Potential

Not available.

Mobility in Soil

**Soil/Water Partition
Coefficient (K_{oc}):**

Not available

Other Adverse Effects: No known significant effects or critical hazards.

Section 13. Disposal Considerations

Disposal Methods: The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional and local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. This material and its container must be disposed of in a safe way. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible.

RCRA Classifications: Not regulated.

Section 14. Transport Information

	DOT Classification	TDG Classification	IMDG	IATA
UN number	Not regulated.	Not regulated.	Not regulated.	Not regulated.

Special Precautions for User: **Transport within user's premises:** Always transport in closed containers that are upright and secure.

**Transport in bulk according
To Annex II of MARPOL
73/78 and the IBC Code:** Not available.

Section 15. Regulatory Information

U.S. Federal Regulations: **TSCA 8(a) CDR Exempt/Partial Exemption:**
This material is listed or exempted.

**Clean Air Act Section 112
(b) Hazardous Air
Pollutants (HAPs):** Not Listed

**Clean Air Act Section 602
Class I Substances:** Not Listed

**Clean Air Act Section 602
Class II Substances:** Not Listed

**DEA List I Chemicals
(Precursor Chemicals):** Not Listed

**DEA List II Chemicals
(Essential Chemicals):** Not Listed

SARA 302/304 **Composition/Information on Ingredients**

No products were found.

SARA 304 RQ: Not applicable.

SARA 311/312
Classification: Not applicable.
Composition/Information on Ingredients
No products were found.

California Prop. 65

This product is not known to contain any chemicals currently listed as carcinogens or reproductive toxins.

International Lists **National Inventory**

Canada: This material is listed or exempted.

China:	This material is listed or exempted.
Europe:	This material is listed or exempted.
Japan:	This material is listed or exempted.
Philippines:	This material is listed or exempted.
Republic of Korea:	This material is listed or exempted.
Taiwan:	This material is listed or exempted.

Section 16. Other Information

History

Date of Issue/Date of Revision: 01/03/2025

Version: 1.9.A

Key to Abbreviations

ATE	Acute Toxicity Estimate
BCF	Bio-Concentration Factor
GHS	Globally Harmonized System of Classification and Labeling of Chemicals
IATA	International Air Transport Association
IBC	Intermediate Bulk Container
IMDG	International Maritime Dangerous Goods
LogP_{ow}	Logarithm of the Octanol/Water Partition Coefficient
MARPOL 73/78	International Convention for the Prevention of Pollution From Ships 1973 as modified by the Protocol of 1978.
MARPOL	Marine Pollution
UN	United Nations

Notice to Reader: To the best of our knowledge, the information contained herein is accurate. However, neither the above-named supplier, nor any of its subsidiaries, assumes any liability whatsoever for the accuracy or completeness of the information contained herein. Final determination of suitability of any material is the sole responsibility of the user. All materials may present unknown hazards and should be used with caution. Although certain hazards are described herein, we cannot guarantee that these are the only hazards that exist.
