▶ ACCIDENT of Body Plant information

Name of victim: Phan The Luu – Forklift driver

Time: 03:05 PM, date: Feb 24th 2026

Place: Aluminum scrap weighing scale area

Situation:

At 3:05 PM on February 24, 2026, a forklift operator stepped down from the cabin to inspect and adjust the forks. Due to a lack of observation and failure to follow the three-point contact rule when descending. This caused the operator to lose their footing, fall, and fracture their left foot (at the little toe).

Direct cause:

"Lack of observation" leads to employees not paying attention when getting on and off the forklift.
